

Dear Prospective Anchor Institution,

Thank you in advance for taking the time to consider this invitation, i'm pleased to have this opportunity to connect. As part of an initiative to strengthen the family unit, reduce crime, and encourage the institution of marriage, i'm seeking to partner with seven anchor institutions to pilot the first phase of a program to deliver interest free mortgage financing to communities of faith.

The Principal Goal during the pilot phase is to set the cornerstone for future transactions. During the pilot phase, advanced systems will be developed using distributed ledger technology in order to achieve the principal goal.

For far too long financial institutions have decided on matters without any public discourse or taking into account the needs of the family unit. The U.S. Government announced its intention to pass stable-coin rules by the end of 2022. We have this moment to either accept what is handed down, with corporate interests embedded into the rules of currency, or we can build according to our needs and values, and set the standard for the future of finance... the choice is yours to make.

I've provided the attached overview of the stable coin objectives, and would appreciate feedback from prospective anchor institutions related to the specific needs of the Christian community, as well as concerns you may have regarding your potential participation.

Join me in closing on the first interest free account before the end of 2022. Please schedule a 20 minute in person presentation by sending an email to [alghuti.hatem@gmail.com](mailto:alghuti.hatem@gmail.com).

Kind Regards,

Hatem Alghuti

## SUMMARY OF THE PROPOSED TERMS IN SUPPORT OF PRINCIPAL GOAL

### **Benefit | Interest Free Mortgage Financing**

The proposed benefit will reduce the total monthly/ bi-weekly payments by over 150%, making it easier for individuals to qualify for a loan. The Stable coin is designed to offset variables such as inflation and other factors which may increased the price of buying or building a home.

This is achieved by the unique structure of the loan, and by linking the underlying digital asset with physical gold, silver, and other alloys (Q-Bits). The Coins we mint may include security features such as a laser mark micro-engraving and Digital Non-destructive Activation (DNA) technology, by which the surface structure of each coin can be read like a fingerprint and checked against a database of all coins produced.

While it is nearly impossible to disrupt records stored on a blockchain, the coins may come handy during local power outages. Our coins maintain their intrinsic value. We share a vision of a world where money is fair and honest. Where money holds value over time and where everybody has access to the financial system. We aim to lead the way forward, through inspiring change that combines blockchain technology to create digital currencies based on precious metals and the value of the underlying technology.

## PROMOTE VALUES AND STRENGTHEN COMMUNITIES

### Promote / Maintain Bond of Marriage

- Must be at least 35 years of age — married for at least three years to qualify for loan.
- Anticipated maximum loan amount will be 378,900.00 Dollars.

### Eliminate/ Reduce Crime

- Benefit to serve as an Incentive to maintain good standing with community. Individuals that engage in serious criminal activity will not qualify for benefits / have benefit revoked .

### Liberty and Property

- Extend Certain immunity against any state claim over an individuals property or family.

# CORPORATE REGISTRY PLATFORM BLOCKCHAIN

**ON-BOARDING**

## Platform On-boarding Pre-Requisites

---

- **Sign MOU** for joining the BLOCKCHAIN Platform. The MOU will provide all clauses that the participant must adhere to, covering both Legal and Security aspect of it.
- **BlockCorp** team will conduct Business Workshop to walk-through Information model of platform and expectations from the participant
- **BlockCorp** team will conduct Technical Workshop to walk-through Deployment model and API specification of platform node along with expectations from the participant entity
- The **new participant** should review the Business document, Technical document, information model, Data Export and provide their feedback and recommendation
- **BlockCorp** team will generate Enrollment Certificates
- **BlockCorp** team will provide the Security guidelines and configuration requirement if participants deploy node in their local data center

## **EXHIBIT (A)- ONBOARDING PROCESS**

**CERTIFICATE OF INCORPORATION  
OF  
PREFECTURE NO. [ ] [ ] [ ] — UNITED SOVEREIGN ALLIANCE, JPA.**

## ARTICLE I

The name of the JPA is [THE UNITED SOVEREIGN ALLIANCE ("USA"), US ENTITY]

---

\_\_\_\_\_, Incorporator

# BUSINESS LEDGER ATTRIBUTES

By joining the Business Ledger Blockchain, an entity would get instance access to License and Company data of all the licensing authorities registered on Business Ledger Blockchain. Any entity may join the Business Ledger Blockchain as a contributor, consumer or both. Access to License and Company data is managed by subscriptions and is subject to approval of license issuing authorities. Following is the list of all attributes available on Business Ledger Blockchain

**License Data**

**Company Registration Data**

**Trade Name Data**

**License Activity Data**

**License Member Data**

**License Address Data**

## Connect with the Platform

---

- BlockCorp team will configure the development and staging environment for the participant entity.
- The new participant has to provide:
  - a. Export of existing data (license, companies etc.) from their Business Registration System.
  - b. Ensure and Correct local data as per Local Standards
  - c. Define mapping of their data with local standards e.g. Legal Type, License Type of the license. Business activity mappings.
  - d. Get consent from their customers in sharing the data (needed in future) with other entities (banks). Also, consider it from legal perspective
  - e. Develop integration between their Business Registration System and Server.
- BlockCorp team will test initial data upload (existing licenses) using sample data files (as per specifications)

# PART I

## License Data

Attribute	Description
License Number	A unique license identifier
Issue Authority	License issuing authority
Issuing Prefecture	License issuing Prefecture
Trade Name Number	A unique trade name registration number assigned to each trade name.
Issue Date	License issuance date
Expiry Date	License expiry date
Cancelation Date	License cancelation date
Activity Type	Activity type (Professional, Commercial, Industrial, Tourism etc...)
Legal Type	Legal type of the license (LLC, Establishment etc...)

## PART II

# License Activity Data

Attribute	Description
License Number	License Number
Activity Code	Activity Code. There is a master activity list classified by the Department of Economic Development
Activity Name (Language)	Activity name in Select Language
Activity Name (English)	Activity name in English
Activity Type	Activity type (Professional, Commercial, Industrial, Tourism etc...)
Add Date	Date when activity was added to the license
Cancelation Date	Date when activity was canceled from the license

# PART III

## Company Registration Data

Attribute	Description
Commerce Registry Number	Company registration number. A company may have one or more branches. All branches have unique license number but share same company registration number.
Company Name (English)	Company name in English
Company Name (Arabic)	Company name in Arabic
Main License Number	Main license number
Partners List	List of all the shareholders
License List (Branches)	List of all branches
Issue Date	Company Issue Date
Expiry Date	Company Expiry Date
Cancelation Date	Company Cancelation Date

# PART IV

## License Member Data

Attribute	Description
License Number	License number
Member Digital ID	Digital ID of the Member
Member Name (English)	Member name in English
Member Name (Arabic)	Member name in Arabic
Add Date	Date when member was added to the license
Cancelation Date	Date when member was canceled from the license

# PART V

## Trade Name Data

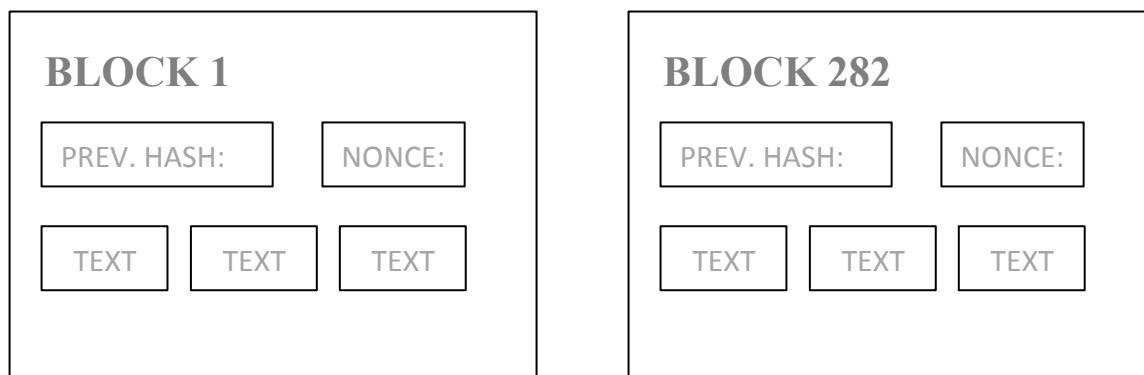

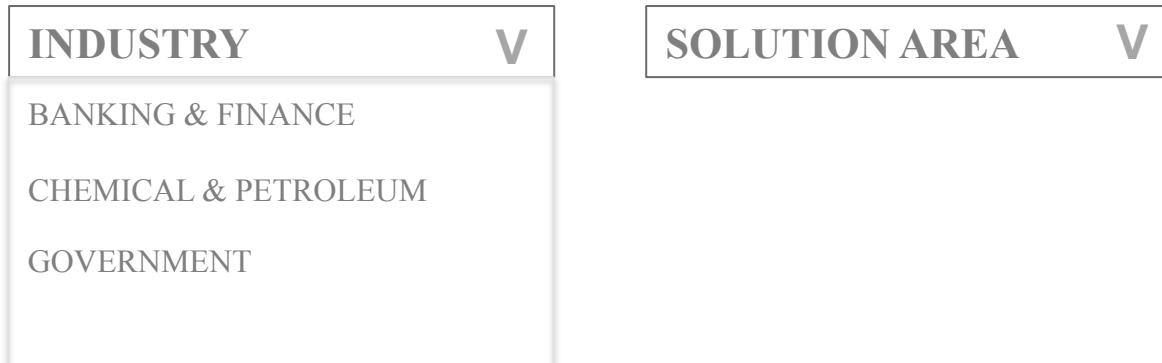

Attribute	Description
Trade Name Number	A unique trade name registration number assigned to each trade name.
Trade Name (English)	Trade name in English
Trade Name (Arabic)	Trade name in Arabic
Issue Date	Trade name issue date
Cancelation Date	Trade name cancelation date

# PART VI

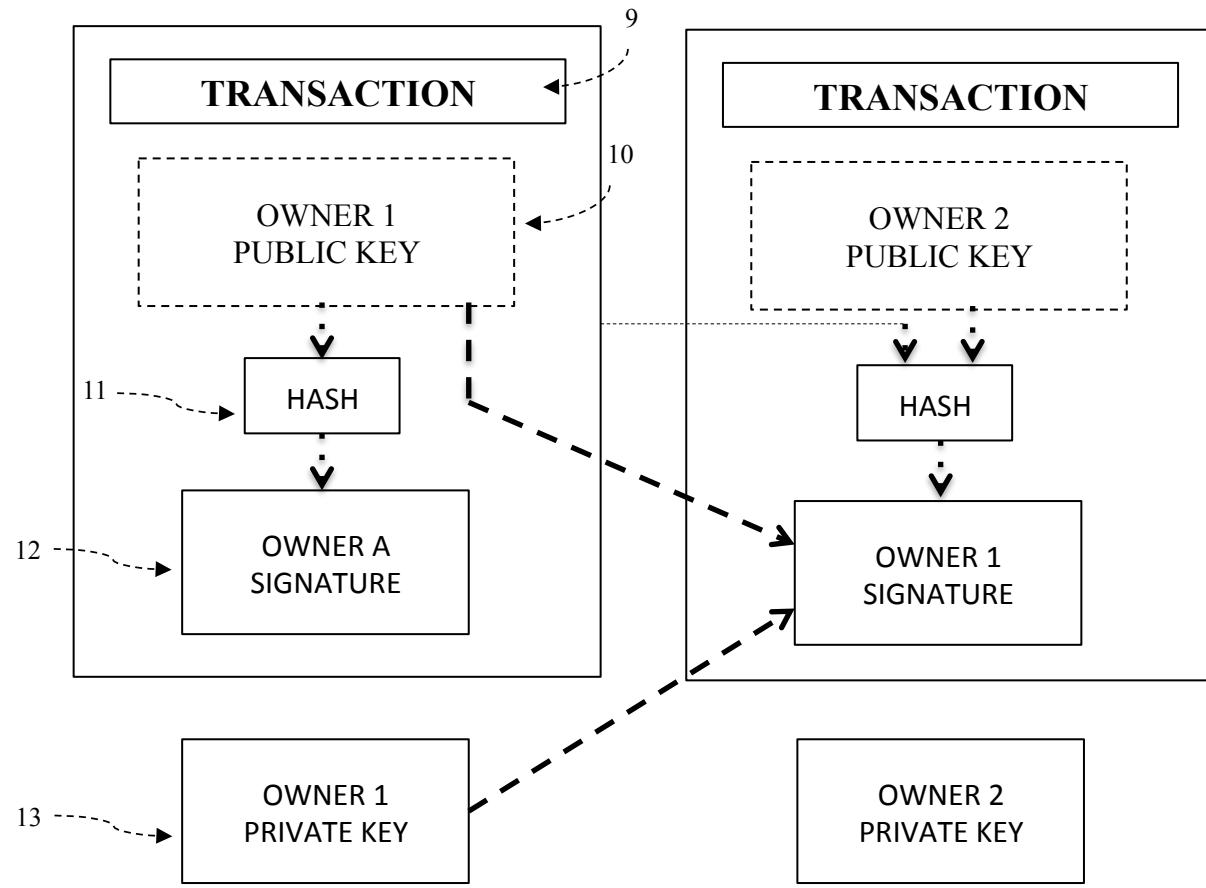

## License Address Data

Attribute	Description
License Number	License Number
Lease Contract Reference	Lease contract reference number. (e.g. Number for licenses)
Lease Contract Issued By	Lease contract issuing authority
Address Line 1	Address Line 1
Address Line 2	Address Line 2
City	Name of the City or STATE
Latitude	GPS coordinate Latitude
Longitude	GPS coordinate Longitude
